## ARTICLE I

### SERVICES

1.1. Engagement. Facility hereby retains the Pharmacy as the designated provider of pharmaceutical services to the Facility for the benefit of the Residents in all matters required or requested in connection with the pharmaceutical needs of such Residents and the operation of the Facility. The term "Designated Provider" shall mean that (i) with respect to the Facility, the Pharmacy shall serve as the exclusive provider of pharmaceutical services at the Facility and (ii) with respect to the Residents, the Pharmacy shall be the only provider from which the Facility recommends or designates that pharmaceutical services be purchased. To this end, the Facility shall not authorize, at any time, the use of another pharmacy for any Resident. Notwithstanding the foregoing, each Resident shall have the right to choose an alternate provider of pharmacy services provided that such provider can meet the quality of care standards established by the Facility and can provide services in a manner that complies with the policies and procedures of the Facility.

1.2. Services. The Pharmacy will provide prescription and non-prescription drugs including intravenous drugs, and pharmaceutical supplies (collectively, "Medications") as ordered by physicians and other health care professionals legally authorized to prescribe such products.

1.3. Methods of providing services.

(a) The Pharmacy shall (i) be responsible for all third party billing for Medicaid, private pay and private insurance; (ii) Maintain drug profiles on each of the Residents; (iii) Provide drug information to the Facility's licensed professional staff regarding Medications; (iv) Provide, maintain and replenish, in a prompt and timely manner, an emergency drug supply as

approved by the Facility's Quality Assurance Committee and any other committees of the Facility (v) Any emergency kits provided will be the property of the Pharmacy as prescribed by law; (vi) Ensure a representative from the Pharmacy is available for attendance at the Facility's Quality Assurance Committee, the Infectious Control Committee and any other committee meetings, with reasonable prior notice and during regularly scheduled visits to the Facility; and (vii) Conduct, when requested by the Facility Administrator, and as mutually agreed to by the Pharmacy and the Facility, programs for in-service education for subjects related to the pharmaceutical services rendered; said in-service education to be conducted by the pharmacist or his/her designee, during regularly scheduled visits to the Facility.

(b) Medications will generally be provided to the facility in a 30-dose bingo drug dispensing system, except where an alternate supply or packaging is necessary. This would include scenarios where medically necessary, or for Brand or Single Source Generic Medications where CMS regulation dictates a 14-day supply for third party dispensing.

(c) The Pharmacy will deliver Medications and provide services to the Facility seven (7) days a week, 365 days a year, with modified schedules on national holidays based on a daily delivery schedule mutually determined by the Facility and the Pharmacy. Emergency delivery of Medications will be done by the Pharmacy during normal business hours, except for circumstances beyond the Pharmacy's reasonable control, and emergency services will be available after hours through an answering service with a pharmacist on-call.

(d) The Pharmacy will establish an emergency system for backup and/or interim order dispensing.

(e) The Facility shall initially provide the Pharmacy with copies of each patient's physician medication order sheets. From these initial records, the Pharmacy will generate the following monthly computerized documentation:

- Physician Order Sheets for each resident will be presented to the Facility on a monthly basis and shall be reviewed and signed by the respective physicians and a carbon copy picked up and returned to the Pharmacy by its driver on a continuous basis. The physician's signature on the Order Sheet shall constitute a renewal for the prescriptions contained therein as required by law and shall be utilized by the Pharmacy's pharmacists, as the basis and guidelines for the dispensing of drugs to the respective residents.
- The Pharmacy shall also prepare and maintain, on a current and continuous basis, for each resident Medication Administration Records as well as Treatment Administration Records.

(f) Monthly, computer generated Physician's Order Sheets, Medication Administration Records and Treatment sheets will be reviewed for accuracy by the Pharmacy, but will be required to be reviewed by the Facility's nurses and prescribers for accuracy before the forms are put into use each month.

(g) The Facility agrees to transmit required information to the Pharmacy on a continual basis and in a timely fashion. The Pharmacy agrees to comply with all requirements of The Health Insurance Portability and Accountability Act (HIPAA), as amended and to comply with the Facility's current HIPAA policies, and reasonable amendments, regarding privacy, confidentiality and security of information protected by HIPAA.

1.4. Equipment

(a) The Pharmacy will provide to the Facility medication and treatment carts as mutually determined by the Pharmacy the Facility's Director of Nursing. This equipment will be the property of the Pharmacy. The Facility will be responsible for payment of bills associated with repairs of the medication and treatment carts if they are damaged while in use (including lock changes, keys, etc.).

(b) The Pharmacy shall provide the Facility with facsimile equipment (without lines) necessary for the transmission of patient status information i.e., private or Medicaid, guarantor information, daily medication orders, prescription changes, new patient admissions, patient discharges, as well as any and all other information pertinent to the resident's medication requirements and/or necessary for the Pharmacy to maintain the quality and level of service rendered to the Facility. The equipment will remain the property of the Pharmacy. The Facility will pay for installation charges (for a direct dial line), supplies, and phone charges. The Facility will use the equipment only for Pharmacy-related business (or pay the Pharmacy the fair market value for any use of equipment for non-Pharmacy related business).

The Pharmacy shall provide its services in compliance with all applicable (i) local, state and federal laws and regulations, (ii) Joint Commission on the Accreditation of Healthcare organizations ("JCAHO") standards and (iii) the Pharmacy's Policies and Procedures Manual.

## ARTICLE II

### BILLING AND PAYMENT

2.1. Facility Information. The Facility will provide the Pharmacy with an accurate daily census report that will serve to inform the Pharmacy of all Resident's payor status and of all pertinent billing information. The Facility will also inform the Pharmacy of bed number changes, discharges and admissions on a daily basis. It is understood and agreed by the parties that the Facility shall promptly notify the Pharmacy of the status and status changes of all Residents (i.e., private or Medicaid in a timely fashion). If the Facility fails to notify the Pharmacy of a patient status change and the Medication is not covered after the change is made such charge will be billed to the Facility.

2.2. Medicaid All Medicaid reimbursable prescriptions for Medicaid eligible Residents serviced in the Facility shall be billed directly to State Medicaid by the Pharmacy. The Facility will not be billed any additional dispensing fees for legend drugs billed to Medicaid directly by the Pharmacy. The Pharmacy will hold Medicaid billings for Residents that have applied for Medicaid for up to six (6) months. After the six (6) month period, or if a Resident is denied Medicaid coverage before that time or the coverage date is not retroactive to the initial date of service, the Pharmacy will bill the Facility, at the facility pricing schedule, for all prior services and charges that have not been paid by Medicaid, including all billings held by the Pharmacy. Should Facility terminate Pharmacy contract, any Pending Medicaid charges held by Pharmacy will be billed to Facility and are immediately due. In no event will Facility be responsible for any services for which Pharmacy receives payment from Medicaid.

2.3. Private Pay. All legend and non-legend drugs dispensed for private paying residents will be billed at the Pharmacy's standard rates of pricing for medications, as adjusted from time to time. The Pharmacy will bill Residents and/or payment guarantors or other persons responsible for

payment (the "Responsible Party") directly for such services. The Facility will provide guarantor and other information necessary for The Pharmacy to bill the Responsible party. The Facility will fax a copy of The Pharmacy's "Individual Long-Term Care Pharmacy Services Agreement" signed by the Responsible Party, to the Pharmacy for each newly admitted Resident. This form will be incorporated into the Facility's initial admission paperwork for all Residents regardless of initial payor status.

2.4. Third Party Payments. The Pharmacy will bill prescription charges directly to those private prescription plans (ex. Paid Prescriptions, AARP, Aetna, PAAD) with which it has contract to fill prescriptions. Any co-payments or portions of the prescription bill not paid by the prescription plan will be billed to the Responsible Party. The Pharmacy reserves the right to abstain from participation with third party payors and to cancel participation contracts with third party payors. In the event that the Pharmacy does not participate with a Resident's third party plan, the Pharmacy will provide all documents within the Pharmacy's control (including, but not limited to: billing statements which are complete with date of service, pharmacist certification signature and National Drug Code) needed for the resident/guarantor to obtain reimbursement. Where Facility holds contracts with managed care plans or other third party payors, it is the responsibility of Facility to be aware of such contract terms as it relates to Pharmacy billing or carveouts and to provide the Pharmacy with true, accurate and complete information about such contact terms. Pharmacy will bill such plans or payors as instructed by Facility.

2.5. Part D. All prescriptions dispensed for Residents with Medicare Part D coverage only (no Medicaid) under plans with contracts with the Pharmacy will be billed directly to the applicable prescription drug plan (PDP) with any co-payments or non-covered charges, including charges for OTC drugs and non-formulary drugs being billed to the Responsible Party. The Pharmacy will advise the Facility when a prescription drug requires a prior authorization or is not covered (non-formulary drug) by the Resident's PDP. The Pharmacy will also assist and advise the Facility in obtaining prior authorization or approval to use a non-formulary drug when a physician or prescriber deems that drug to be medically necessary. In the event that the PDP denies approval of a non-formulary drug and the physician or prescriber declines to order a covered alternate drug, the original drug will be dispensed and the Responsible Party will be billed.

2.6. Dual Eligibles. All prescriptions dispensed for residents with Medicare Part D coverage as well as Medicaid coverage (dual eligible) under plans with contracts with the Pharmacy will be billed directly to the applicable prescription drug plan (PDP) with any co-payments or non-covered charges, billed to the plans wherever LIS is updated. The Pharmacy will advise the Facility when a prescription drug is not covered (non-formulary drug) by the resident's PDP. The Pharmacy will also assist and advise the Facility in obtaining approval to use a non-formulary drug when a physician or prescriber deems that drug to be medically necessary. In the event that the PDP denies approval of a non-formulary drug and the physician or prescriber declines to order a covered alternate drug, the original drug will be dispensed and the Facility will be responsible for payment of the charges. In this case, drugs will be billed to The Facility at the Usual and Customary rate. For prescription drugs where there may be "wrap around" coverage by Medicaid, the Pharmacy will bill State Medicaid.

2.7. Non-Prescription Drugs. The Facility may order OTC from the Pharmacy and such drugs will be billed to the Facility at bulk discounted prices in accordance with the Pharmacy's normal price schedule.

2.8. Returns. Returns may be accepted where permitted by law. Refrigerated products, opened drops, creams, and ointments, opened or partially used inhalers, or any other items that can not be restocked are not eligible for credit. Special order medications and items which may only be dispensed in their full quantities will not be eligible for credit. No restock fee will apply.

2.9. Invoices. The Pharmacy shall submit invoices on a monthly basis to the Facility for the services rendered which are the responsibility of the Facility, including but not necessarily limited to, medications provided under a resident's Medicare Part A stay or where applicable law or Third Party mandate requires that the Facility be billed for drugs and supplies. All invoiced amounts are due within sixty (60) days from the date of the invoice. A finance charge of one and a half (1.5) percent per month may be assessed on unpaid balances after sixty (60) days. In the event of non-payment under these terms above, the Pharmacy reserves the right to terminate this agreement with written notice to the Facility. The Facility will notify the Pharmacy in writing within twenty (20) days of the billing date of the Pharmacy's invoice indicating any amounts in dispute. In the event of any dispute arising from any claim or bill submitted by the Pharmacy, the Pharmacy will have access to all reasonable and necessary documents and records that would, in the discretion of the Pharmacy, tend to sustain its claim. The Facility agrees to reimburse the Pharmacy for any and all costs incurred to collect payment from the Facility, including, without limitation, reasonable attorneys' fees.

2.10. Changes in Fees. If changes in (i) Federal, State or local law, regulation or controlling legal interpretation, (ii) local market conditions, or (iii) other factors beyond the reasonable control of the Pharmacy occur that increase the cost to the Pharmacy to carry out its obligations hereunder then Pharmacy may, no more often than every 3 months, increase its rates hereunder by delivering written notice of such increase to the Facility at least thirty (30) days in advance of the effective date of such increase.

2.11. Negotiation. All fees and services noted in the above categories will be negotiated between the two parties before any renewal term, but shall remain as set forth herein unless otherwise mutually agreed by the parties. Any such mutually determined changes will be reflected as contract amendments.

2.12. Miscellaneous. The Terms and Conditions attached hereto as Exhibit A are incorporated herein and made a part of this Agreement.

Upon transfer of the assets of the Facility, the Facility shall use its best efforts to have the transferee assume this contract. 17. Mutual Drafting. The parties hereto are sophisticated and have been represented by lawyers who have carefully negotiated the provisions hereof. As a consequence, the parties do not intend that the presumptions of any laws or rules relating to the interpretation of contracts against the drafter of any particular clause should be applied to this Agreement and therefore waive their effects.

This is a contract for pharmacy services between PharmScript

\_\_\_\_\_ and \_\_\_\_\_  
(The Resident) (The Guarantor/Responsible  
Party)

We the resident and/or guarantor (responsible party) wish to contract with PharmScript (The Pharmacy) and understand that The Pharmacy will supply medications and related pharmacy or medical/surgical items as ordered by authorized healthcare professionals of the long-term care facility (The Facility) in which the resident resides. The Pharmacy agrees to dispense medications and related medical/surgical supplies in accordance with all State and Federal Regulations pertaining to pharmacy practice and long-term care facilities. Services provided include, but are not limited to, special packaging of medications to comply with State and Federal packaging requirements for drugs administered in long-term care facilities, monthly computerized physician and nursing documentation forms for required medical record keeping, and delivery of pharmaceuticals/medical supplies/surgical supplies to the long-term care facility in which the resident resides.

The Pharmacy agrees to bill third party insurers with which it has contracts to provide pharmacy services, when coverage is available, and to forward any balances to the resident or responsible party for payment. In the event that The Pharmacy is a non-participating provider of services relative to the resident's prescription plan, the resident and responsible party will be responsible for payment to The Pharmacy. The Pharmacy will supply all necessary documentation to the resident and/or responsible party so that the resident or responsible party may pursue reimbursement from the prescription plan. The Pharmacy reserves the right to abstain from participation in any third party prescription plan and the right to cancel contracts with third party prescription plans.

The resident or guarantor will not be billed for pharmacy service charges during any time that the resident is covered under Medicare A. The Pharmacy will bill State Medicaid for covered prescription drugs when that coverage is available. The Pharmacy will bill the resident or responsible party during periods that the resident is considered to be "pending Medicaid." The resident and responsible party will be responsible for charges assessed during any time period which the resident is determined, by State Medicaid, to be "ineligible." The Pharmacy will refund any applicable payments made by the resident or responsible party once State Medicaid has begun to make payments.

All payments are to be made within thirty (30) days after receipt of the monthly billing. In the event that payment is not received at thirty-one (31) days following the monthly statement date, The Pharmacy reserves the right to access an eighteen percent (18%) APR and can refer the account to collection or its legal department for litigation. Any collection or attorney fees or costs incurred will be the responsibility of the resident and guarantor if collection becomes necessary.

The Pharmacy, a "Covered Entity" as defined by the Health Insurance Portability and Accountability (HIPAA) of 1996, agrees to keep patient health information secure and confidential in accordance with all regulations related to HIPAA and the use of Protected Health Information (PHI)
